

PROJECT REPORT TEMPLATE

CRM Application That Helps To Book A Visa Slot

1. INTRODUCTION

1.1 OVERVIEW

(i) A visa slot management project is a system that is used to track and manage the availability of visa slots, which are appointments that are required for certain visa application.

(ii) It might be used by a government agency or a visa processing center To schedule and manage appointments with applicants.

(iii) The concept of customer relationship management (CRM) aims to streamline the approach of organizations toward their customers.

(iv) It includes documentation of customer data so that it can be used for information analysis, evaluation, and future planning.

(v) For immigration consultants, it is very important to maintain proper records of potential clients as well as existing customers.

(vi) Investing in a CRM system is undoubtedly very fruitful not just for small & medium sized organizations but for large ones as well.

1.2 Purpose

(i) Customer relationship management (CRM) is a technology for managing all your company's relationships and interactions with customers and potential customers.

(ii) The goal is simple. Improve business relationships.

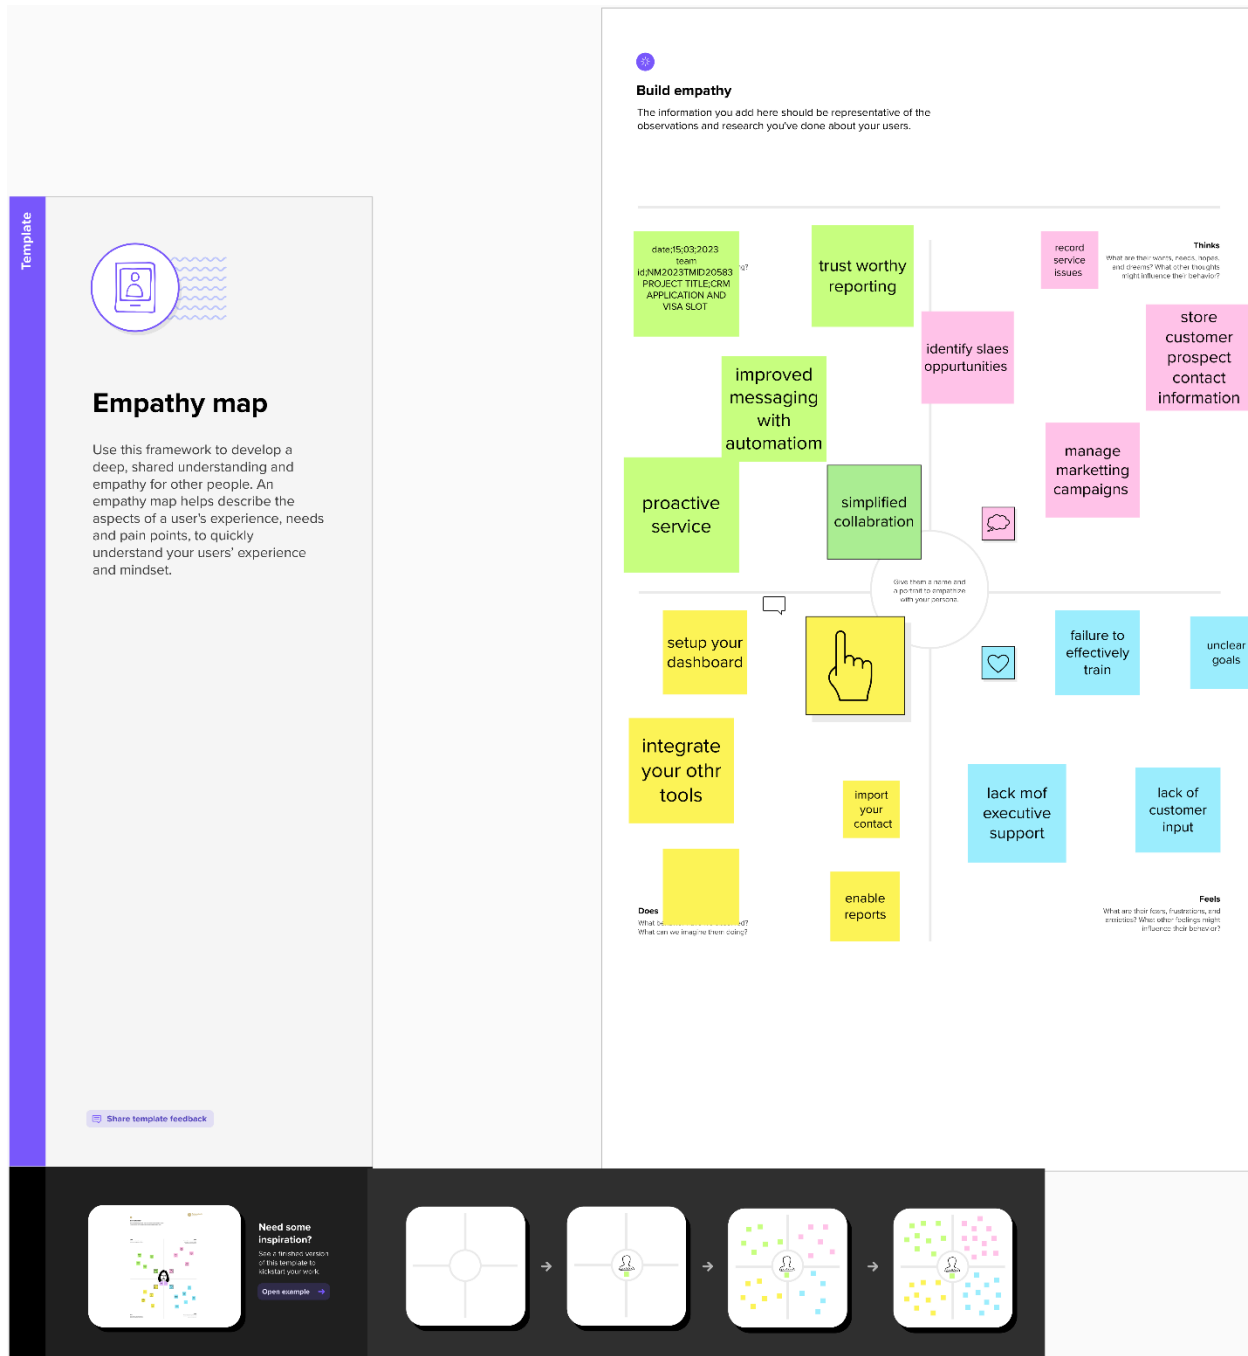

(iii) A CRM system helps companies stay connected to customers, streamline processes, and improve profitability.

(iv) with a CRM solution, the sales and marketing team can track and follow a customer's interaction journey with your business.

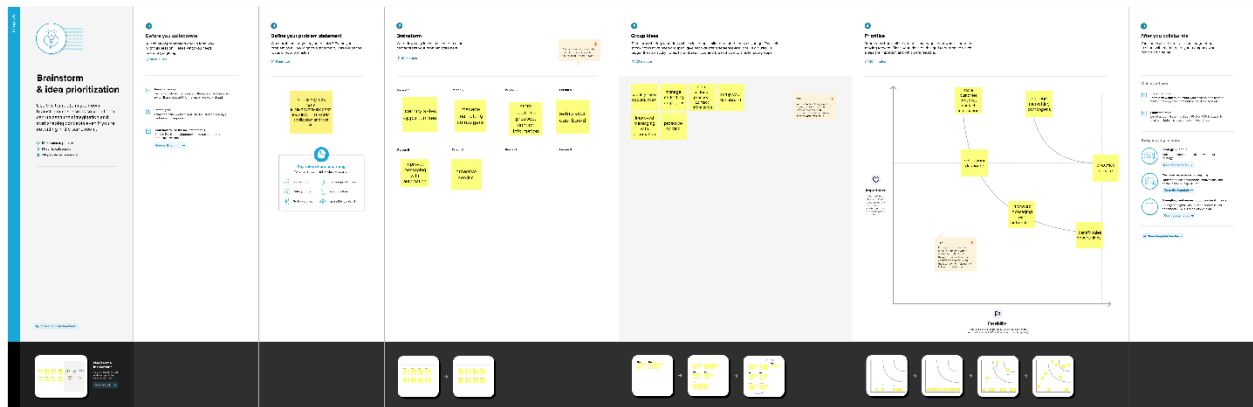

(v) This can enhance the customer journey and experience by refining each customer touchpoint.

Milestone 3:

Activity 1:

The screenshot shows the Salesforce Object Manager interface for the 'visa slot' object. The left sidebar contains a navigation menu with options: Details, Fields & Relationships (selected), Page Layouts, Lightning Record Pages, Buttons, Links, and Actions, Compact Layouts, Field Sets, Object Limits, Record Types, Related Lookup Filters, Search Layouts, List View Button Layout, Restriction Rules, and Scoping Rules. The main content area is titled 'Fields & Relationships' and shows a table of 7 items, sorted by Field Label. The table has columns: FIELD LABEL, FIELD NAME, DATA TYPE, CONTROLLING FIELD, and INDEXED. The fields listed are: Created By (CreatedById, Lookup(User)), Last Modified By (LastModifiedById, Lookup(User)), location (location__c, Text(18)), passport number (passport_number__c, Master-Detail(passport), indexed), time (time__c, Time), visa slot Name (Name, Text(80), indexed), and visa slot number (visa_slot_number__c, Text(18)).

FIELD LABEL	FIELD NAME	DATA TYPE	CONTROLLING FIELD	INDEXED
Created By	CreatedById	Lookup(User)		
Last Modified By	LastModifiedById	Lookup(User)		
location	location__c	Text(18)		
passport number	passport_number__c	Master-Detail(passport)		✓
time	time__c	Time		
visa slot Name	Name	Text(80)		✓
visa slot number	visa_slot_number__c	Text(18)

Milestone 5:

Activity 1:

The screenshot shows the Salesforce Setup interface for managing users. The left sidebar contains a navigation menu with options like Users, Permission Set Groups, Profiles, Public Groups, Queues, Roles, and User Management Settings. The main content area is titled 'All Users' and provides instructions on how to create, view, and manage users. It also mentions downloading SalesforceA for mobile devices. Below the instructions, there is a table listing existing users with columns for Action, Full Name, Alias, Username, Role, Active status, and Profile. The table includes five users: Chatter Expert, E. Janani, Janani E. Ms, User Integration, and User Security. Each user row has an 'Edit' link. At the bottom of the page, there are buttons for 'New User', 'Reset Password(s)', and 'Add Multiple Users'.

ENG 12:06 PM IN 4/11/2023

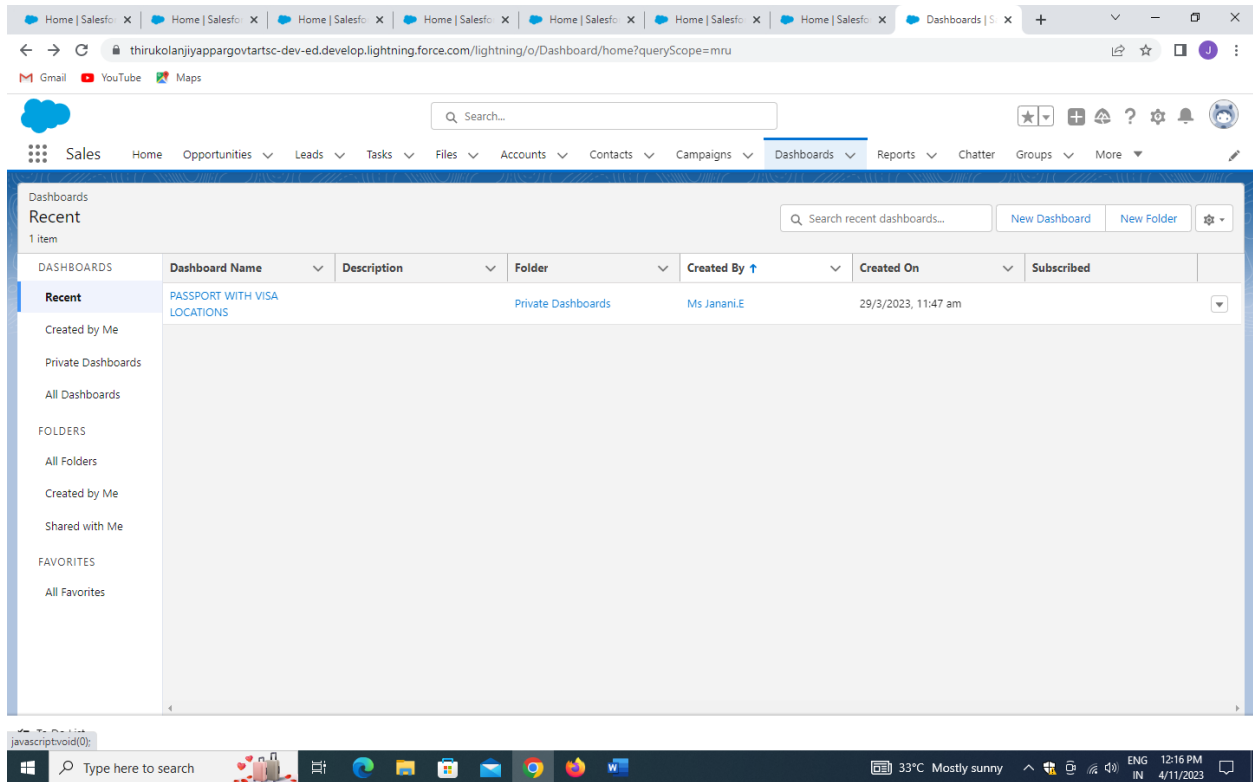

Milestone 6:

Activity1:

The screenshot displays the Salesforce Report Builder interface. The browser address bar shows a URL from a Salesforce development environment. The Salesforce navigation bar at the top includes the 'Reports' tab, which is currently active. The report being edited is titled 'New passports with visa slots Report' and is located under the 'passports with visa slots' category. The left sidebar contains the 'Outline' panel, which is divided into 'GROUP ROWS' (containing 'location') and 'GROUP COLUMNS' (containing 'passport: passport Number'). The 'Columns' section at the bottom of the sidebar shows 'visa slot: visa slot Name'. The main report area displays a message: 'No records returned. Try editing report filters: • Show All passports. • Edit other filters in the filter panel.' The bottom of the interface shows the 'Row Counts', 'Detail Rows', 'Grand Total', and 'Stacked Summaries' options, all of which are currently enabled. The Windows taskbar at the very bottom shows the system date and time as 12:13 PM on 4/11/2023.

5. Advantages & Disadvantages

Advantages:

- (i) Improved informational organizations.
- (ii) CRM for enhanced communication.
- (iii) CRM improves your customer service.
- (iv) Automation of every tasks.
- (v) Greater efficiency for multiple terms.
- (vi) Improved analytical data and reporting.

Disadvantages:

- (i) CRM costs. one of the greatest challenges to CRM implementation is cost.
- (ii) Business culture. A lack of commitments or resistance to cultural change from people within the company can cause major difficulties with CRM implementation.
- (iii) Poor communication.
- (iv) Lack of leadership.

6. Applications

(i) As customers have various products or services to choose from, it becomes challenging for businesses to position themselves in the market.

(ii) As a result, customers make their purchase decisions based on their experience with the business.

(iii) Hence, it becomes necessary for a company to offer an excellent customer experience (CX). For that, businesses require complete knowledge of customer data.

(iv) CRM systems collect necessary data from several sources such as email, websites, marketing campaigns, advertising campaigns, and physical stores.

(v) All these data are placed together to develop CRM solutions and enhance the customer experience.

7. Conclusion

(i) The term Customer Relationship Management (CRM) describes systems and processes within companies which, with the help of customer data, aim to unify and improve customer service in order to achieve higher levels of customer loyalty.

(ii) Customer Relationship Management brings together various departments, such as sales and marketing, to ensure a uniform approach which ultimately contributes to increasing the company's success.

(iii) Unlike many other corporate guidelines, CRM focuses on the customer and customer relationships rather than on sales or profits.

(iv) This approach is particularly widespread in the business-to-business (B2B) area where it is often very difficult for companies to attract new customers.

(v) Although online marketing has made things much easier and opened up new solutions, business-to-business still remains a sector where it is difficult, and above all expensive, for any company to acquire fresh customers.

(vi) Customer relationship management is also used in the business-to-consumer area, though it plays a somewhat different role here because CRM for business customers is usually based on processes and solutions that are specifically tailored to individual customers.

8.Future scope

(i) CRM is predicted to become more powerful to support customer first, not company first businesses.

(ii) Bringing together disparate teams, data, and system integrations, the CRM of the future is set to be centralized and empowered by AI and mobile capabilities.

(iii) Defining the scope of CRM projects means figuring out which areas of your business need to be included in the CRM implementation plan.

(iv) Before any CRM initiative begins, scoping is essential to establish what the effort will and will not cover, as well as to prevent feature creep and project bloating.
